## **Antolin joins the Princess of Girona Foundation to help develop young talent in Spain**

**Burgos, July 18, 2023-** Antolin, a global provider of automotive interior technology solutions, has joined the Board of Trustees of the Princess of Girona Foundation, which recently held its 30th meeting on the occasion of 2023 Princess of Girona Awards. Ernesto Antolin, Chairman of Antolin, will be part of the 82-member Board of Trustees.

Antolin joins the Princess of Girona Foundation to help this organization in its important work of supporting the professional and personal development of young people in Spain, as well as promoting their talent and entrepreneurship. One of the essential axes of a society's development is employability and ensuring the future of young people with the aim of making the most of their scientific, innovative or creative capabilities. To this end, Antolin joins the Princess of Girona Foundation project, which since its inception in 2009 has helped the professional development of numerous young people.

Fostering and attracting the best talent is one of the pillars of Antolin's responsible and sustainable business model. The company promotes youth access to their first job through scholarship programs and other agreements with universities and educational centers around the world. In addition, it has specific programs aimed at training young people in the processes and knowledge of the automotive industry with special focus on technology and digitization.

With the ambition to lead the transformation of the automotive industry and build the future of sustainable mobility, Antolin wants to have the best talent that will define that future.
